EXPERIENCE

Associate Engineer

Virtusa

02/2022 - 12/2022 Pune, Maharashtra, India

PROJECTS

Project: Exam Portal Web-Application

Virtusa

- Technologies Used: Angular, Angular Material, Bootstrap, Java, Spring Boot, Hibernate, JWT Authentication, Spring Security, MySql.
- This website allows users to create an account and can sign in with their account. And at the time of registration, it will store the user data in the database.
- I used JWT authentication and spring security in the sign-in stage, so it will provide much more security to this website.
- On this website, two types of users can log in, i.e Admin User and Normal User. Admin users will responsible for performing all advanced operations i.e admin operations, and normal Users can take multiple types of exams and can perform other normal operations.

OTHER PROJECTS

1) Project: Portfolio Website

Self Project

- Technologies used: Angular, Angular Material, Bootstrap, Font Awesome.
- My portfolio website, obviously, you can find more information about me here. this website is live on the GitHub server.
- Website Link: DhammapalSuradkar-123.github.io/Dhammapal-Suradkar

2) Project: News Website

Collage Project

- Technologies used: HTML5, CSS3, JavaScript, Bootstrap4, PHP, MySql.
- It's a News Website with account Security, normal user and admin user can log in to their account using usernames and passwords.
- and perform other operations i.e Create New posts, Delete Old posts, Add Users, Delete Users, Create News Category, Delete News Category, and Change Website Settings.
